LinkedIn | GitHub | Portfolio

Summary

React Developer with 4.5 years of experience building responsive, high-performance web applications using Next.js, React.js, JavaScript, and modern stacks. Passionate about UI optimization and clean code.

Skills & Technologies

- **Front-end:** Next.js, React.js, JavaScript (ES6+), Redux, HTML5, CSS3, Tailwind CSS, jQuery
- **Back-end:** Node.js, PostgreSQL, Express.js
- **Tools & Platforms:** Git, GitHub, VS Code, Webpack, Vite, Agile, Jira
- **Others:** REST APIs, Progressive Web Apps (PWA), Data Structures, Test-Driven Development (TDD), MVC

Experience

Ipsos | Senior Scripting Executive | React Developer | May 2025 - Present

- Promoted to Senior Scripting Executive for leading the development of React-based survey applications, improving code reusability by 35%.
- Mentored junior developers in React.js and optimized SQL-to-API integrations for faster data rendering.

Ipsos | Scripting Executive | React Developer | Oct 2022 - April 2025

- Developed interactive survey applications using React.js, JavaScript, and SQL.
- Built reusable React components to enhance development efficiency.
- Optimized SQL queries and integrated APIs for data-driven solutions.

Phronesis Partners | Scripting Executive | Nov 2021 - Oct 2022

- Developed responsive web applications using React.js and JavaScript.
- Improved website performance and SEO through modern front-end optimizations.

Ameyo | Product Trainee | Feb 2021 - Oct 2021

- Assisted in product development and deployment using Linux (CentOS) and PostgreSQL.
- Enhanced problem-solving abilities while contributing to the design and implementation of features.

KHK Technical Services Pvt Ltd | SEO Executive | Oct 2020 - Feb 2021

- Improved website visibility via SEO strategies and keyword research.

Key Projects

Countries List API | Live Demo

- Developed a React.js application that allows users to explore and retrieve real-time country information.
- Implemented search functionality and designed a fully responsive UI with Tailwind CSS.

Next.js 15 dashboard | Live Demo

- Built a Next.js 15 dashboard with TypeScript, NextAuth.js (PostgreSQL), Tailwind CSS, real-time data visualization, and Neon DB integration, optimized with Turbopack.
- Developed secure authentication, responsive UI, form validation, error handling, and performance optimizations using connection pooling.

Next.js Blog | Live Demo

- Built a Next.js blog with SSG for fast performance, markdown-based CMS, dynamic routing, SEO optimization, and responsive design, cutting page load time by 90%.
- Architected a scalable platform with modular components, markdown processing (gray-matter, remark), Next.js Image optimization, and SSG, reducing load time by 40%.

Education

B. Tech - Computer Science | United College of Engineering, AKTU (2016 - 2020), Delhi NCR

Certifications & Awards

- React JS Course - Scaler (May 2024)
  - Legacy JavaScript Algorithms & Data Structures - freeCodeCamp (Aug 2024)
  - Linux Professional Certification - Udemy (May 2021)
- Ipsos - Project Delivery Excellence Award
  - Phronesis Partners - Star of the Month Award
  - Deloitte Australia - Technology Job Simulation
  - PostgreSQL - Udemy (Oct 2019)
